**CIPP**

25,875.00

Pipe Restoration Solutions (PRS) proposes to restore your cast iron sewer utilizing “cured in place pipe” lining (CIPP). We will clean and remove scale/debris while returning the pipe to its original operating diameter and CIPP line approximately 165 +/- of 2", 3" and 4" cast iron (unit's 403 & 407) under the slab from the cleanout up to the high end to include the underground laterals. We will use the start and stop method at the lateral fittings and provide “after lining” videos to show the liners are installed properly.

We propose to furnish material and labor – complete in accordance with the above specifications for a fee of \$25,875. PRS estimates this project to be completed within 4-5 workdays. The above pricing includes one concrete access hole in the driveway. PRS will make access, cut the concrete and put the concrete back up to grade. This includes one brass flush mount cleanout. PRS will not be responsible for any decorative finishing or interior flooring.

PRS assumes no liability for any possible damage that could arise due to brittle, deteriorating, or cracked piping that could be uncovered by the hydro-cleaning process. If the pipe is so deteriorated that despite a good faith attempt to line it, it must be conventionally replaced, it will be an extra cost change order. If concrete or drywall access holes are required, it will be a change order. If roof access is required, PRS will not be responsible for any broken or damaged roof coverings. PRS is not responsible for damage that may occur to landscape, sod, irrigation system, or any underground utilities. If negative pitch of pipe is discovered there will be an additional charge for correction of pipe. If permitting is required, fees will be passed direct to owner.

TERMS: balance due at completion of service /Proposal is valid for (30) days. Please note there is a 3.5% processing fee for credit card transactions.

Please contact me if you have any further questions or would like to schedule an appointment.

Thank you,  
Pipe Restoration Solutions
